

Kingswells Public Access Defibrillators

Get trained. Save a life. You'll be glad you did.

Good news! The first Public Access Defibrillator will soon be installed at the Chemist.

To support this defibrillator, we are planning a training event by the Resilience Officer of the Scottish Ambulance Service.

If you are interested in becoming involved or want more information check out <https://kwells.org/defib> or email defibrillator@kwells.org or call 01224 749743
